Eve Sánchez Silver

Medical Research Analyst

Executive Director

Clear Research

silver@clearresearch.org

<http://www.clearresearch.org/>

There is a media blackout on the truth
about the Abortion Breast Cancer Link.

The medical system is denying the facts.

This calls for aggressive action:

We're gonna have to tell the truth.

Let's examine the truth

Outline

- The **S**usan **G.** **K**omen Breast Cancer Foundation's financial affair with **P**lanned **P**arenthood
- Steering women away from the truth: The women's health community
- The **Abortion-Breast Cancer** link

Important Breast Cancer Note:

- Most women who develop breast cancer never had an abortion
- No one knows all the factors which initiate breast cancer for sure
- **Abortion increases breast cancer risk**
- Prevention of all breast cancers is not yet an option
- However:
Prevention of Abortion-Breast Cancer is

Breast Cancer is a very personal thing

- It fractures your femininity
 - It shatters your self-image
 - It is the destroyer of “*self*” as you know yourself to be
- Breast Cancer is a destroyer of worlds

Breast Cancer and Abortion are devastating

It is a deep and bitter grief.

For those with breast
cancer...

Survival is brutal

Deposition Alaska, 2005:

“Someone said that emotion should not be a factor in these proceedings. He was not a woman, holding her first grandchild to her empty, salt-filled breasts.”

(Alaska Deposition for A-BC Facts; www.pinkmoney.org)

Georgia Lu at 7 mos with **Harri**

The National Hispanic Latina Advisory Council

My SGK Background

- Charter member
- Four years
- National SGK speaker
- **Active Proponent for a National Native American Advisory Council**
- Unaware of SGK/PP connection

Pacific Rim Native Americans
Meeting, Seattle 2003

RUMOR:

Is **SGK** Funding **Planned Parenthood**?

Midwest Story

2004:

- **Allegation:**

- **Joan Archer, an Iowa woman, claims SGK is funding PP**

Friday May 21, 2004, Davenport, IA; Rachelle Treiber, *Quad-City Times*

- **Action:** Bald woman gives up her wig at public SGK meeting

Report:

- Ricocheted news
 - E-mails arrive
 - Questions abound
 - I ask around at SGK:
Could this be true?
Is it possible that SGK is funding PP?

YES! The 'rumor' was true:

- In 2003 **\$38.4 M** raised for community service
 - 21 **SGK** affiliate grants totaling
\$475,000+
went to **Planned Parenthood** (Kristen Kelly, SGK Public Relations)

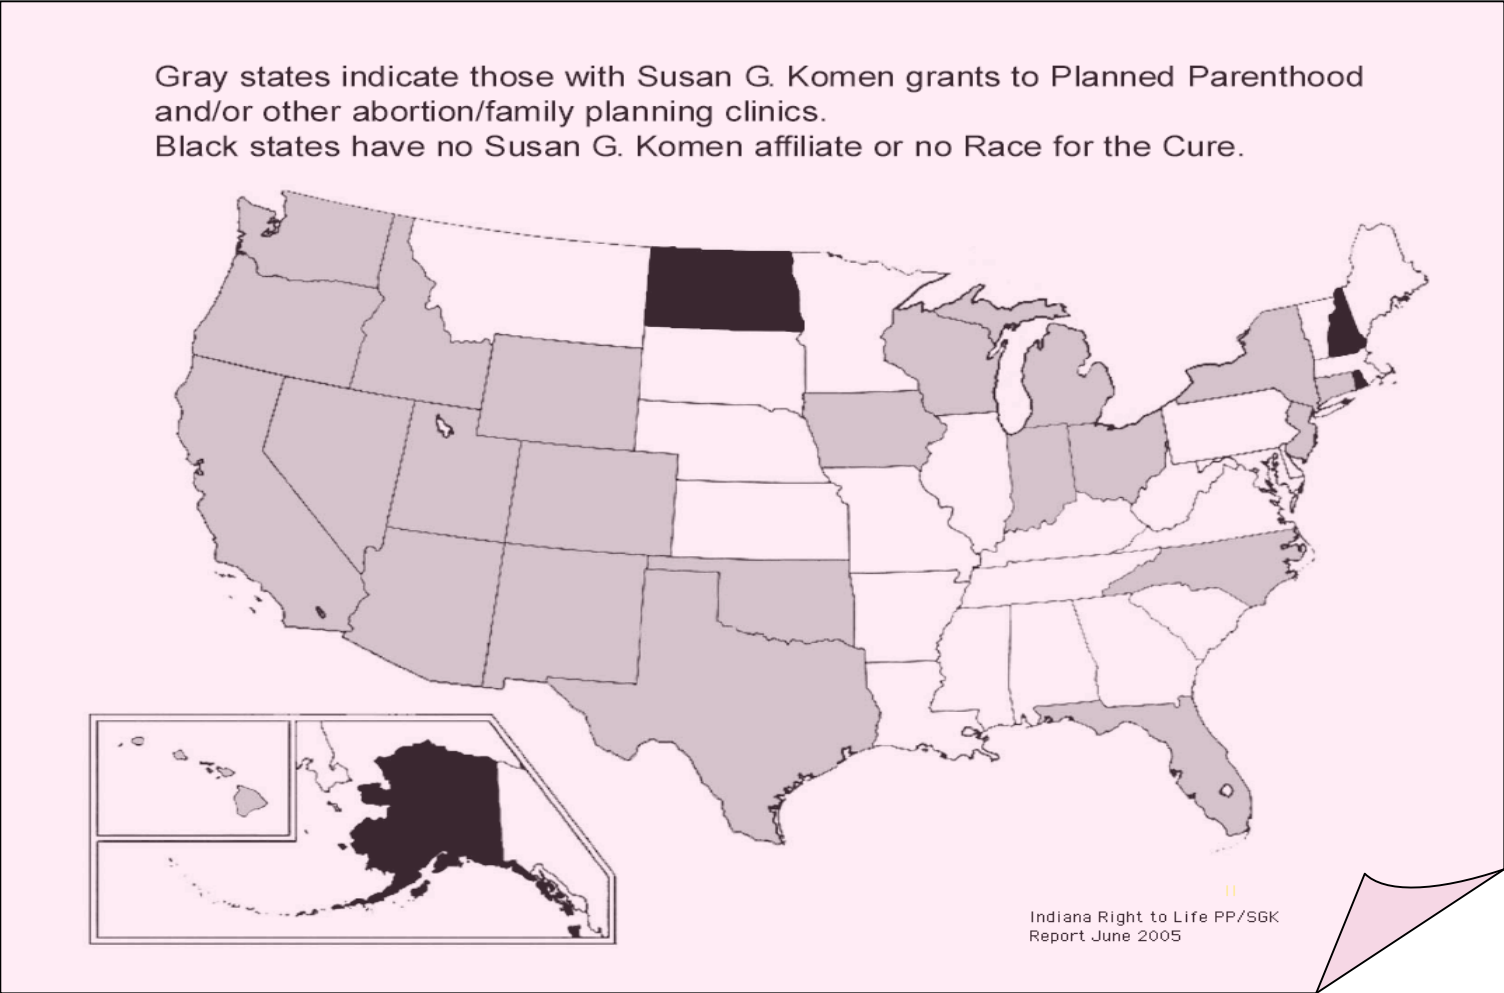

Prove it!

Komen vows NOT to stop funding PP

"The Komen Foundation is confident that none of its community Affiliates have stopped funding Planned Parenthood as a result of pressure from Curves, Operation Save America or any other organization. In fact, when faced with opposition from Curves or the threat that Curves franchises would no longer support the Foundation unless Planned Parenthood funding was eliminated, the Komen Foundation told Mr. Heavin (founder and CEO of Curves) that we would not, in any way, undermine the integrity of our grant-making process. In addition, the Foundation told Mr. Heavin that it **would continue to allow Komen Affiliates to provide breast health education and screening grants to Planned Parenthood** if the grant application was approved through the process outlined above. As a result, Curves chose to suspend its support of Komen Affiliate events, including sponsorship of the Komen Race for the Cure®. **In 2003, Komen Affiliates awarded \$38.4 million in grants to support community outreach programs, including 21 grants to their local Planned Parenthood chapters totaling more than \$475,000.**

With warm regards and appreciation,
Kristin Kelly, Public Relations Manager
The Susan G. Komen Breast Cancer Foundation "4

Indiana Right to Life SGK PP Funding Report 2005

What has SGK got to do with Planned Parenthood?

\$\$\$ **PLENTY** \$\$\$

- **SGK's "Pink Money" flows through the veins of Planned Parenthood**
 - Supporting PP agenda of death and deception
 - Swelling bloated Planned Parenthood's bulging **"Not For Profit"** coffers

DID YOU KNOW?

Between years **1987 - 1999**

YOU

*and the rest of
the American taxpayers
contributed*

\$1.81 Billion

to **Planned Parenthood**

Your Tax \$\$\$ Hard at Work

SERIOUS TIES

- Nancy Brinker, **SGK** Founder became:
 - **2002** Advisory Council **PP** of North Texas

THE FOLLOWING YEAR

- **2003 SGK awards \$475,000 in 21 affiliate grants to Planned Parenthood**
 - In **2003** PP of North Texas builds new facility:
Cost: **\$5,000,000**
 - **Is there a conflict of interest here?**

PP has money to burn...

- **Planned Parenthood** is characterized as one of the wealthiest US organizations
 - earning **\$ 216M** in 2004 NY Times
 - government entitlements
 - private donations
- **Planned Parenthood** is the largest provider of BC/pills and abortions in the Nation

An Intolerable Discovery

- Spoke in person with Komen officials
- Resigned as charter member of the National Hispanic/Latina Advisory Council, speaker and reviewer
- Gave SGK my **Final Advisory...**

“Disassociate from PP”

*“...It is my final advisory to The Susan G. Komen Breast Cancer Foundation that it **withdraw its continued financial support to Planned Parenthood**, a multi-million dollar international institution which is systematically focused upon the abortion and the destruction of life.*

*“The multi-cultural nature of our **SGK councils** makes **our people the very focus of that destruction.**”*

“I cannot sit idly by.”

Other PP targets...

- “... one of the real options being considered by Planned Parenthood: providing abortions in places **where federal laws don't apply**.”
 - Some of the places it has identified for setting up abortuaries are:
 - **Native American reservations**
 - Ships offshore (such as the Women on the Waves initiative)
 - along the Canadian border where abortion is legal”
 - **(Ryan Report Nov. 2004)**
- 

Fulfillment of a PP plan...

PORCUPINE, S.D.

A Sioux tribe ousted its Chief for proposing an abortion clinic on the reservation, which would be beyond the reach of **South Dakota's strict new abortion ban.**

Ogalala Sioux Chief Fired!

Female Sioux Tribal Leader Ousted
For Proposing Reservation - Abortion Clinic
Saturday, **July 01, 2006**

www.NativeLife.us

Preserving Native Lives

NativeLife

Preserving Native Lives

NATIVE PEOPLE of the world, from every nation, tribe and tongue have wept in silence for too long;

We Know the Truth: They say, There is no child...

**THEY LIE: ABORTION IS GENOCIDE
THE CHILD IS ALIVE**

War Song For The Child Alive

Listen here: **www.nativelife.us**

Worldwide leaders are taking a stand against abortion...

ABORIGINAL LEADER
ANDREA MASON

“Speaking the truth in times of deceit
is a revolutionary act.”

“ABORTION IS GENOCIDE”

The Aboriginal People of Australia

- Native to Native program
Adelaide, Australia

**“THANK YOU FOR STRENGTHENING
THE FOUNDATIONS OF MY HOUSE.”**

ANDREA MASON

Women deserve the truth

- Abortion increases breast cancer risk
- Even one abortion increases risk of premature birth (Brent Rooney)

Premature Birth

- **60 out of 60 studies show even ONE ABORTION significantly increases Risk of Premature Birth**
 - Premature birth increases baby's risks of:
 - **Cerebral Palsy**
 - **Hyaline Membrane (lung) Disease**
- **Poland and Ireland** - countries which prohibit abortion- have **50% lower rates** of premature birth and breast cancer than US

Women should be told

- Full term pregnancies close to onset of menstruation protect women from breast cancer
- Birth control pills are **steroids** for women
- Estrogen in bc pills is **carcinogenic**

Psychological problems increase

- Aborted women clinically experience:
 - **Shame**
 - **Auditory hallucinations**
 - **Issues of intimacy**
 - **Sexual dysfunction**
 - **Psychologically numb**
 - **Increased hostility**

source: *Silent No More* - Canada

Suicidal Ideation

- **Suicidal ideation in aborted women is 2- 5 x's higher than other women**

source: *Silent No More - Canada*

- **Finland's statistics are: 6x's higher**

(Please see: www.pinkmoney.com/australia_download0509.pdf for details)

American Women

- 2002 study of low income Californian women over 8 year period, women who **aborted** compared to women who **delivered full term** are more likely to die from:
 - Suicide **184%**
 - Accidents **82%**
 - Circulatory disease **187%**
 - Cerebrovascular disease **446%** (stroke)
 - Natural causes **44%**

Southern Medical Journal 2002; 95 (8):834-841

Women are dying

- 94 percent of **maternal deaths associated with abortion** are not identifiable from death certificates alone
- death rate associated with abortion is **actually three times higher** than that of childbirth

National Research and Development Center for Welfare and Health -Finland

Breast Cancer organizations

- Claim concern for women's health
- Raise funds from the public for their work
- Teach younger women their philosophy

Breast Cancer organizations: a **violent agenda to**

- Fund **abortion** through Planned Parenthood (sgk)
- Deny **abortion**-breast cancer link research (nci)
- Slam **Abortion**-Breast Cancer organizations (NBCC)

Planned Parenthood Founder Margaret Sanger's program of death:

- **BIRTH CONTROL PILLS:**
 - Higher doses of estrogen with longer, intensive exposure
- **ABORTION: [A-BC Link](#), destruction of child**
- **BREAST CANCER: Destruction of mother**

Partial Birth Abortion & now PLAN B:

Margaret Sanger's program of death
is

STILL Right on Track

Planned Parenthood's Founder Margaret Sanger

- She was a supporter of Hitler and **the solution...**
- **Eugenics is:** “*the most adequate and thorough avenue for racial, political and social problems*”. (– Margaret Sanger. “*The Eugenic Value of Birth Control Propaganda*” *Birth Control Review* , Oct. 1921, p.5)
- “giving certain dysgenic groups in our population their choice of **segregation** [concentration camps] **or sterilization**”. (“A Plan For Peace,” *Birth Control Review*)

The Susan G. Komen Breast Cancer Foundation
is paying into Planned Parenthood's

- **SEEK** and **DESTROY** mission...

A PROGRESSIVE GENOCIDE OF THE “UNFAVORED RACES”

- In America today **almost as many** black children are aborted as born
- A black baby is **3 times** more likely to be aborted [than] a white baby
- Since 1973 **abortion has reduced the black population by 25 %.**
- **13% of all Black American women have 35 % of all the abortions in America**

http://www.klanparenthood.com/History_of_Abortion_Statistics/

Lies, More Lies and Statistics

- Despite minorities comprising only a quarter of the population, they account for more than half of all abortions. (Social Justice Review)

The Center for Disease Control and Prevention (CDC) report on Hispanics

- 40.5 percent of abortions are accounted for by nonwhites **the perception is that only about 40 percent of abortions are by minorities** and **the remaining 60 percent by the majority** (non-Hispanic) whites. **However**, if Hispanics are not included with whites and instead classified as a separate minority race, then **minorities account for over 50 percent of all abortions**, despite comprising only 25 percent of the population.

SGK says that their \$\$\$
is helping women get breast services

- ***“Planned Parenthood is often the only breast service provider for rural women and women of under-served areas.”(Planned Parenthood)***
- SGK funding has, ostensibly provided \$\$\$ to increase services to
 - Women in rural areas
 - Women of under-served areas, **like... ummm RESERVATIONS**

So... breast services
are **UP** at PP RIGHT?

- Planned Parenthood's breast services are **DOWN**: (according to the most recent Ryan Report)
 - PP services **between 2002 and 2003**
 - abortions **increased** by **14,000**, while
- breast exams decreased by more than**

141,000

Is SGK in cahoots with PP?
Is one hand washing the other?

“Never let a mortician take your pulse.”

The Pink Money Cycle

You give to **SGK**

SGK gives to **PP**

PP murders people

Abortion is a cause of breast cancer

Breast cancer keeps **SGK** in business

Women die of breast cancer

We give **SGK** more money

Pink Money Organizations

- **PINK MONEY FLOWS THROUGH THE VEINS** of any organization for whom the **abortion/breast cancer connection is financially useful or politically expedient**
- **ANY organization whose social agenda benefits from the A-BC information blackout**

The “Pink Money” Organizations are not immediately obvious

- **SGK** - funds PP
- **PP**- supplies birth control & abortions
- **American Cancer Society** - Withdrew its info on the A-BC link
- **NBCC** - Creates ridiculous charges to discredit **CABC**
- **NCI** - Recognizes “no significant link between abortion and breast cancer”. Sound familiar?
 - In 1928 first study on lung cancer /smoking link from England
 - NCI finally admitted it **might be true** in the **1950’s**
- Dying women **do not have time** for NCI to catch up with the facts

SGK denies A-BC link

- SGK's supposed adherence to *following the scientific data where ever it leads* is a feint
- **When the scientific evidence disagreed with their political agenda, they chose to follow their political agenda**
- SGKs concern for the health of women is now parallel to PP's concern for the health of the children that they abort
- IT IS AN IDEALOGICAL TRAGEDY TO THINK PP HELPS PEOPLE
- **PP is not in the business of saving lives, doing pap smears & bc x**
 - **Planned Parenthood is in the Business of Killing People**
- **SGK has chosen** to align themselves with PP and their gruesome objective of murder

The Susan G. Komen Foundation is getting its dollars from women running for the lives

“RACE for the Cure”

- For my sister
- My mother
- My friend

Planned Parenthood’s newest position:

A Kinder, Gentler Murderer

- “Nobody WANTS abortion”
- New focus on **contraception...**

With the decision on **Plan B**, the FDA has unleashed an attack on children in the womb that **may dwarf the murders cause by surgical abortion.**
(STOP Planned Parenthood news)

SGK relies upon the NCI

- The National Cancer Institute's position denies the importance of the abortion-breast cancer link:
 - The NCI relies upon the Beral “meta-analysis” of the A-BC link
 - This study has been discredited (Dr. Angela Lanfranchi: *Journal of Ethics and Medics*) because:
 - It refused to include a number of published, peer-reviewed studies
 - Compared aborted women **to women who had never been pregnant** rather than women who had carried to term

The FDA reports:

- **Ortho Evra** contraceptive "sex patch" released in 2002 has already been responsible for the deaths of 23 women.
 - 17 other "life-threatening" conditions, including blood clots, strokes and heart attacks.
- 2004, death is linked to the contraceptive patch. Information from the Medical Examiner's Office indicates death was caused by a blood clot.

Bureaucracy

- Information may be used as a tool of manipulation
- Some researchers fear
 - for their reputations
 - their jobs would be in jeopardy
 - **FUNDING WILL BE WITHHELD or LIMITED**

Science first

- **Dr. Janet Daling is an abortion proponent whose ideology did not drive her research:**

"I have **three sisters with breast cancer and I **resent people messing with the scientific data to further their own agenda, be they pro-choice or pro-life**. I would have loved to have found no association between breast cancer and abortion, **but our research is rock solid and our data is accurate**."**

[L.A. Daily News, Sept., 1997] [Abortion Breast Cancer Coalition]

Abortive Women follow a trend...

- Women who procure **abortions** use:
 - hormonal **contraceptives** visit the family planning **clinics** in their **20's**
 - Visit **fertility** clinics in their **30's** and the
 - **Oncologist's office** in their **40's**

The Abortion-Breast Cancer Link

The Physiological Pathway of the Abortion Breast Cancer Link

*"Human biology will never conform to human ideology.
For optimal health,
ideology must conform to human biology."*

(Karen Malec, President, Coalition on Abortion/Breast Cancer)

*"There is a great deal at stake here. When the public learns that
the causal link between abortion and breast cancer has been
downplayed by the scientific community -- for reasons that are
ideological rather than factual-- the feeling of betrayal will be
strong."*

(Edward J. Furton, M. A., Ph.D., Editor, Ethics and Medics,
The Corruption of Science by Ideology Dec. 2004; vol. 29/12)

The breast is an organ

- The mammary gland is the **only** organ that is **not fully developed** at birth
- From birth to puberty (first menstrual period) the breast is immature and **cancer vulnerable**
- At 32 weeks of pregnancy, life preserving breast cell changes occur:
 - During the last 8 weeks of a full term pregnancy, breast cells matures into milk producing **cancer-resistant tissue**

Estrogen makes breasts grow

- **Estrogen is carcinogenic**
 - its carcinogenic effect is measured in parts per trillion
- **Women start producing substantial estrogen at puberty**
- **Estrogen is a cause of breast cancer for women with **TYPE 1** and **TYPE 2** mammary lobules**
- **The longer women with **TYPE 1** and **TYPE 2** lobules are exposed to their own estrogens, the greater their risk of developing breast cancer**

How does breast differentiation occur?

- Before puberty **TYPE 1** lobules form
- At puberty more estrogen causes growth of **TYPE 2** lobules
- Pregnancy **rapidly increases estrogen** causing a dramatic growth of **TYPE 1** and **TYPE 2** lobules
- At 32 weeks of pregnancy, most **TYPE 1** and **TYPE 2** lobules are changed into **TYPE 3** lobules.
 - Think: **BROCCOLI FLORETS**
- **Type 4** lobules are the milk producing cells
- Both **TYPE 3** and **TYPE 4** lobules are essentially immune to cancer

Types of Breast Lobules

Type 1
Breast at birth

Type 2
Breast after puberty

Type 3
Breast with pregnancy
after 32 weeks

Type 4
Breast with milk

Effect of first full term pregnancy on risk

- A full term pregnancy **dramatically reduces lifetime breast cancer risk by changing the immature breast cells into mature ones**
- **The FIRST full term pregnancy has the greatest risk-reducing effect** since **more type 1 and 2 lobules are present prior to this pregnancy** than just before any subsequent pregnancies

Subsequent pregnancies further reduce lifetime risk

- **Reducing the time interval** from first menstruation until the first full term pregnancy also serves to limit overall lifetime risk

Pregnancy
is protective

Societal delay of marriage

- We encourage our children to become **TEENAGERS** rather than ADULTS
- We **see the results** of that in our **Boys & Girls Gone Wild**
- **Note:**

There is no such thing as a TEENAGER

Early Reproduction and Marriage

Heartbeat International National Conference

Chicago, Spring 2005

We reap the results worldwide

- Contraception: the practice of Abortion
- Late life fertility Issues
- In vitro Fertilization
- and soon, Cloning

Early Reproduction and Marriage

Heartbeat International National Conference

Chicago, Spring 2005

Abortion rates indicate breast cancer death rates

British life insurance actuaries predict breast cancer deaths by following abortion rates (Patrick Carroll PAPRI, UK)

- The first trend is that **upper-class women are the most likely to develop breast cancer and die of the disease**
- **Abortion before a first birth and delayed first birth among upper class** women provide the best explanations for this trend, according to Carroll

Breast cancer is shattering

- *I feel that my life, my femininity and my self-image were shattered, fragmented and reorganized.*
- *The breast cancer survivor, is often presented in public, well after her ordeal, when the reality of her pain has been dealt with and diminished.*
- *I am an ebullient, effervescent person by nature; it was unimaginable, as a woman of faith, to find myself so thoroughly distressed and disheartened.*
- *My support system was severely fragmented and attenuated.*
(E. Silver-- *Eve's Story*)

I don't want anyone to experience that

SPEAK out

- *“We still whisper words... like cancer, and abortion, when we should be disseminating information at full voice, that all might have the opportunity to form intelligent conclusions as to what is truth.”*
- *“Communication is what is missing; the information is out there. But information is useless if it is not communicated.”* (Pablo Sanchez, Director, [Pro-Life Joes](http://www.prolifejoes.com) www.prolifejoes.com)

8 Medical Groups Affirm...

<http://www.abortionbreastcancer.com/medicalgroups/index.htm>

- Abortion **is** one of the causes of breast cancer

Here's what you can do

- **OUT THE TRUTH:** Write letters to the editor of your newspaper: The public must be **told and engaged** in spreading the word about the **Abortion-Breast Cancer Link**
- Send e-mail alerts (Google Alerts: abortion, abortion-breast cancer link)
- Phone radio stations
- Tell your friends, colleagues and neighbors
- Keep informed, stay in touch

info@clearresearch.org

Organizations working to OUT the TRUTH:

- **Colorado Right to Life**
 - www.coloradorighttolife.org
- **The Abortion-Breast Cancer Coalition**
 - www.abortionbreastcancer.com
- **Stop the Cover-Up**
 - www.abortionbreastcancer.ca
 - www.stopabortionbreastcancer.org
- **The Breast Cancer Prevention Institute**
 - www.bcpinstitute.org
- **Clear Research**
 - www.clearresearch.org

Summary

- Breast Cancer and Abortion Organizations are **linked**
- There is important information about the **lifetime abortion-breast cancer risks** to women
- **Pink Money** Organizations claim concern for women's health but are silent about the significant studies and data on the abortion-breast cancer link
- The facts are clear and "rock-solid"
- **This information is not getting out**

There is no time to waste.

Tell somebody the truth

- The public must be informed
- YOU must become pro-active

End

"...there is a highly visible difference between the pace of basic sciences and **the application of new knowledge to human problems**. It needs explaining."

Lewis Thomas

From The Abortion Breast Cancer Coalition Endnotes (1)

- The Abortion/Breast Cancer Link: Support for the Evidence
- Physiological Evidence
- **Dr. Jose Russo, M.D. and Dr. Irma Russo, M. D.** (Fox Chase Cancer Center, PA)
- In 1980 Russo and Russo published the results of their study involving laboratory rats which **confirmed a relationship between abortion and increased risk of breast cancer.**
- [Russo & Russo (1980) Am J. Pathol 100:497-512].

- **Medical Groups Supporting Disclosure of Research:**
- **Association of American Physicians and Surgeons**
- 1601 N. Tucson Blvd., Suite 9
- Tucson, AZ 85716-3450
- 520-323-3110
- "The Association of American Physicians and Surgeons believes that patients have the right to give or withhold fully informed consent before undergoing medical treatment. This includes notification of potential adverse effects. **While there is a difference of medical opinion concerning the abortion breast cancer link, there is a considerable volume of evidence supporting this link, which is, moreover, highly plausible. We believe that a reasonable person would want to be informed of the existence of this evidence before making her decision.**"
- Jane Orient, MD
- Executive Director
- October 27, 2003

Endnotes (2)

- **Dr. Janet Daling's** 1994 study found an increased risk of 50% for the general population. It remains the only study specifically commissioned by the National Cancer Institute. [Janet R. Daling et al., "Risk of Breast Cancer Among Young Women: Relationship to Induced Abortion," 86 **Journal of the National Cancer Institute**; (1994);1584]
- Dr. Daling is an abortion supporter, but she did not allow her ideology get in the way of science. She said, "I have three sisters with breast cancer and I resent people messing with the scientific data to further their own agenda, be they pro-choice or pro-life. I would have loved to have found no association between breast cancer and abortion, but our research is rock solid and our data is accurate." [L.A.
