3

Planned Parenthood's
Founder Margaret Sanger

- **Eugenics is:** "the most adequate and thorough avenue for racial, political and social problems". (--- Margaret Sanger. "The Eugenic Value of Birth Control Propaganda" Birth Control Review, Oct. 1921, p.5)
- **Historical Note:** Eugenics came **FROM** Sanger in the **USA**, **TO** Hitler in GERMANY, not the other way around, as many believe.
- Sanger was a supporter of Hitler and **'The Solution'...**

4

Historical Note

- Eugenics went **FROM** Sanger in the **USA**, **TO** Hitler in GERMANY (not the other way around, as many believe).
- Planned Parenthood Founder Margaret Sanger was a supporter of Hitler and **'The Final Solution'...**

5

**A PROGRESSIVE GENOCIDE OF THE
"UNFAVORED RACES"**

- In America today **almost as many** black children are aborted as born
- A black baby is **3 times** more likely to be aborted [than] a white baby
- Since 1973 **abortion has reduced the black population by 25 %.**
- **13% of all Black American women have 35 % of all the abortions in America**
http://www.klanparenthood.com/History_of_Abortion_Statistics/

6

Let's examine the truth

Outline

- The **Susan G. Komen** Breast Cancer Foundation's financial affair with **Planned Parenthood**
- SGK is steering women away from the truth: The **Abortion-Breast Cancer** link

7

Important Breast Cancer Note:

- Most women who develop breast cancer never had an abortion
- No one knows all the factors which initiate breast cancer for sure
- **Abortion increases breast cancer risk**
- Prevention of all breast cancers is not yet an option
- However:
Prevention of Abortion-Breast Cancer is

8

Breast Cancer is a very personal thing

- It fractures your femininity
 - It shatters your self-image
 - It is the destroyer of "self" as you know yourself to be
- Breast Cancer is a destroyer of worlds

9

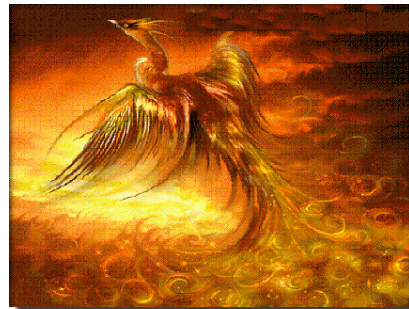

Breast Cancer and Abortion are
devastating

It is a _____ and bitter grief.

10

For those with breast
cancer...

11

Survival is brutal

12

The National Hispanic Latina Advisory Council

My SGK Background

- Charter member
- Four years
- National SGK speaker
- **Active Proponent for a National Native American Advisory Council**
- Unaware of SGK/PP connection

Pacific Rim Native Americans Meeting, Seattle 2003

13

RUMOR:

Is **SGK** Funding **Planned Parenthood**?

14

Midwest Story

2004:

- **Allegation:**
 - **Joan Archer, an Iowa woman, claims SGK is funding PP**
- **Action:** Bald woman gives up her wig at public **SGK** meeting

Friday May 21, 2004, Davenport, IA; Rachele Treiber, *Quad-City Times*

15

Report:

- Ricocheted news
 - E-mails arrive
 - Questions about
 - I ask around at SGK:
 - Could this be true?**
 - Is it possible that SGK is funding PP?**

16

YES! The 'rumor' was true:

- In 2003 **\$38.4 M** raised for community service
 - 21 **SGK** affiliate grants totaling **\$475,000+** went to **Planned Parenthood**

(Kirsten Kelly, SGK Public Relations)

17

Prove it!

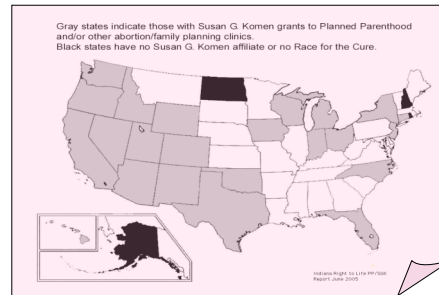

18

Komen vows NOT to stop funding PP

"The Komen Foundation is confident that none of its community Affiliates have stopped funding Planned Parenthood as a result of pressure from Curves, Operation Save America or any other organization. In fact, when faced with opposition from Curves or the threat that Curves franchises would no longer support the Foundation unless Planned Parenthood funding was eliminated, the Komen Foundation told Mr. Heavin (founder and CEO of Curves) that we would not, in any way, undermine the integrity of our grant-making process. In addition, the Foundation told Mr. Heavin that it would continue to allow Komen Affiliates to provide breast health education and screening grants to Planned Parenthood if the grant application was approved through the process outlined above. As a result, Curves chose to suspend its support of Komen Affiliate events, including sponsorship of the Komen Race for the Cure®. In 2003, Komen Affiliates awarded \$38.4 million in grants to support community outreach programs, including 21 grants to their local Planned Parenthood chapters totaling more than \$475,000. With warm regards and appreciation,
 Kristin Kelly, Public Relations Manager
 The Susan G. Komen Breast Cancer Foundation™"

19

Indiana Right to Life SGK PP Funding Report 2005

20

What has SGK got to do with Planned Parenthood?

21

\$\$\$ PLENTY \$\$\$

- SGK's "Pink Money" flows through the veins of **Planned Parenthood**
 - Supporting PP agenda of death and deception
 - Swelling bloated Planned Parenthood's bulging "Not For Profit" coffers

22

DID YOU KNOW?

Between years 1987 - 1999

YOU

and the rest of the American taxpayers contributed

\$1.81 Billion

to **Planned Parenthood**
 Your Tax \$\$\$ Hard at Work

23

SERIOUS TIES

- Nancy Brinker, **SGK** Founder became:
 - 2002 Advisory Council **PP** of North Texas

24

THE FOLLOWING YEAR

2003 SGK awards **\$475,000** in 21 affiliate grants to Planned Parenthood

In 2003 PP of North Texas builds new facility:

Cost: **\$5,000,000**

25

An Intolerable Discovery

- Spoke in person with Komen officials
- Resigned as charter member of the National Hispanic/Latina Advisory Council, speaker and reviewer
- Gave SGK my **Final Advisory...**

26

“Disassociate from PP”

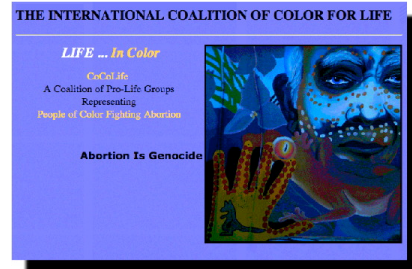

“...It is my final advisory to The Susan G. Komen Breast Cancer Foundation that it **withdraw its continued financial support to Planned Parenthood**, a multi-million dollar international institution which is systematically focused upon the abortion and the destruction of life.

“The multi-cultural nature of our **SGK councils** makes our people the very focus of that destruction.

“I cannot sit idly by.”

27

www.CoCoLife.US

“a more sustainable world for all people” except the recently conceived

- Universal access to reproductive health is key to achieving the **Millennium Development Goals**. MDG 5, particularly 5b, is the most off-track of all MDGs, yet the **critical importance of reproductive health** to development has been widely acknowledged: **Universal access to reproductive health is the key to reducing maternal mortality; preventing unwanted pregnancies; curbing the spread of STIs, including HIV/AIDS; empowering women and girls; and contributing to a more sustainable world for all people.**

29

Other PP targets...

- “... one of the real options being considered by Planned Parenthood: providing abortions in places **where federal laws don't apply**.
- Some of the places it has identified for setting up abortuaries are:
 - **Native American reservations** (NativeLife.us)
 - Ships offshore (such as the Women on the Waves initiative)
 - along the Canadian border where abortion is “legal”

30

Women are dying

- 94 percent of **maternal deaths associated with abortion** are not identifiable from death certificates alone
- death rate associated with abortion is **actually three times higher** than that of childbirth

National Research and Development Center for Welfare and Health -Finland

31

Breast Cancer organizations: a **violent agenda to**

- Fund **abortion** through Planned Parenthood (SGK & American Cancer Society)
- Deny **abortion**-breast cancer link research (National Cancer Institute)
- Slam **Abortion**-Breast Cancer organizations (National Breast Cancer Coalition)

32

Lies, More Lies and Statistics

- Despite minorities comprising only a quarter of the population, **minorities account for more than half of all abortions.** (Social Justice Review)

33

SGK says that their funding is helping women get breast services

- **"Planned Parenthood is often the only breast service provider for rural women and women of under-served areas."** (Planned Parenthood)
- SGK funding has, ostensibly provided **PP** funding to increase services to
 - Women in rural areas
 - Women of under-served areas

34

CLEAR RESEARCH

Eve Sanchez Silver • Diocese

3/11/08

National Council of Bishops

To Whom It May Concern:

Over the past few months, a number of Bishops have reversed their original decisions to stop funding the Susan G. Komen Breast Cancer (SGK) Foundation's *Race For the Cure* through its races and walks in hopes of providing breast services and education for women in their various areas.

However, some Bishops have seen the danger of funding SGK: Please see the attached recent position statement from Archbishop Raymond Burke and the Diocese of St. Louis, Missouri. In this letter, Bishop Burke has instructed parishioners not to donate to the Susan G. Komen Foundation because of their financial support of Planned Parenthood through grants.

Confusion

35

So... breast services went **UP** at PP RIGHT?

- Planned Parenthood's breast services are **DOWN**: (Ryan Report)
- PP services **between 2002 and 2003**
 - abortions **increased** by **14,000**, while **breast exams decreased** by **more than 141,000**

36

Is **SGK** in cahoots with PP?
Is one hand washing the other?

“Never let a mortician take your pulse.”

37

The Pink Money Cycle

You give to **SGK**
SGK gives to **PP**
PP murders people
Abortion is a cause of breast cancer
Breast cancer keeps **SGK** in business
Women die of breast cancer
We give **SGK** more money

38

Silent Researchers

- Information may be used as a tool of manipulation
- Some researchers fear
 - for their reputations
 - their jobs would be in jeopardy
 - **FUNDING WILL BE WITHHELD or LIMITED**

39

The Abortion-Breast Cancer Link

40

SGK denies A-BC link

- SGK's supposed adherence to *following the scientific data where ever it leads* is a feint
- **When the scientific evidence disagreed with their political agenda, they chose to follow their political agenda**
- SGK's concern for the health of women is now parallel to PP's concern for the health of the children that they abort
- IT IS AN IDEALOGICAL TRAGEDY TO THINK PP HELPS PEOPLE
- **PP is not in the business of saving lives, doing pap smears & bc x**
 - Planned Parenthood is in the Business of Killing People
- **SGK has chosen** to align themselves with PP and their gruesome objective of murder

41

The Susan G. Komen Foundation is getting its dollars from women running for the lives

“RACE for the Cure”

- For my sister
- My mother
- My friend

Planned Parenthood's newest position:
A Kinder, Gentler Murderer
Increasing services with SGK and ACS funds

With the decision on **Plan B**, the FDA unleashed an attack on children in the womb that may dwarf the murders cause by surgical abortion.
(STOP Planned Parenthood news)

42

Women deserve the truth

- Abortion increases breast cancer risk
- Even one abortion increases risk of premature birth. (Brent Rooney, MSc)

43

Premature Birth

- **60 out of 60 studies show even ONE ABORTION significantly increases Risk of Premature Birth**
 - Premature birth increases baby's risks of:
 - **Cerebral Palsy**
 - **Hyaline Membrane (lung) Disease**
- **Poland and Ireland** - countries which prohibit abortion- have **50% lower rates** of premature birth and breast cancer than US

44

Women should be told

- **Full term pregnancies** close to onset of menstruation **protect women from breast cancer**
- Birth control pills are **steroids** for women
- Estrogen in bc pills is **carcinogenic**

45

The breast is an organ

- The mammary gland is the **only** organ that is **not fully developed** at birth
- From birth to puberty (first menstrual period) the breast is immature and **cancer vulnerable**
- At 32 weeks of pregnancy, life preserving breast cell changes occur:
 - During the last 8 weeks of a full term pregnancy, breast cells matures into milk producing cancer-resistant tissue

46

Estrogen makes breasts grow

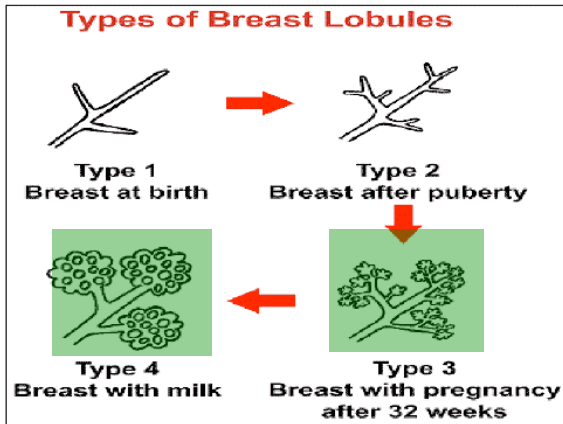

- Estrogen is carcinogenic
 - its carcinogenic effect is measured in parts per trillion
- Women start producing substantial estrogen at puberty
- Estrogen is a cause of breast cancer for women with **TYPE 1** and **TYPE 2** mammary lobules
- The longer women with **TYPE 1** and **TYPE 2** lobules are exposed **to their own estrogens**, the greater their risk of developing breast cancer

47

How does breast differentiation occur?

- Before puberty **TYPE 1** lobules form
- At puberty more estrogen causes growth of **TYPE 2** lobules
- Pregnancy **rapidly increases estrogen** causing a dramatic growth of **TYPE 1** and **TYPE 2** lobules
- At 32 weeks of pregnancy, most **TYPE 1** and **TYPE 2** lobules are changed into **TYPE 3** lobules.
 - Think: **BROCCOLI FLORETS**
- **Type 4** lobules are the milk producing cells
- Both **TYPE 3** and **TYPE 4** lobules are essentially immune to cancer

48

Effect of first full term pregnancy on risk

- A full term pregnancy **dramatically reduces lifetime breast cancer risk by changing the immature breast cells into mature ones**
- The FIRST full term pregnancy has the greatest risk-reducing effect** since **more type 1 and 2 lobules are present prior to this pregnancy** than just before any subsequent pregnancies

50

Subsequent pregnancies further reduce lifetime risk

- Reducing the time interval from first menstruation until the first full term pregnancy also serves to limit overall lifetime risk

Pregnancy is Protective

51

Abortion rates indicate breast cancer death rates

British life insurance actuaries predict breast cancer deaths by following abortion rates (Patrick Carroll PAPRI, UK)

- The first trend is that **upper-class women are the most likely to develop breast cancer and die of the disease**
- Abortion before a first birth and delayed first birth among upper class women** provide the best explanations for this trend, according to Carroll

52

SPEAK out

- "We still whisper words... like cancer, and abortion, when we should be disseminating information at full voice, that all might have the opportunity to form intelligent conclusions as to what is truth."*
- "Communication is what is missing; the information is out there. But information is useless if it is not communicated."* (Pablo Sanchez, Director, Pro-Life Joes www.prolifejoes.com)

53

Here's what you can do

- OUT THE TRUTH:** Write letters to the editor of your newspaper: The public must be **told and engaged** in spreading the word about the **Abortion-Breast Cancer Link**
- Send e-mail alerts ([Google Alerts: abortion, abortion-breast cancer link](#))
- Phone radio stations
- Tell your friends, colleagues and neighbors
- Keep informed, stay in touch

info@cocolife.us

54

Organizations working to OUT the TRUTH:

- **The International Coalition of Color For Life**
– www.cocolife.us
- **The Abortion-Breast Cancer Coalition**
– www.abortionbreastcancer.com
- **Stop the Cover-Up**
– www.stopabortionbreastcancer.org
- **The Breast Cancer Prevention Institute**
– www.bcpinstitute.org

55

Summary

- Breast Cancer and Abortion Organizations are **linked**
- There is important information about the **lifetime abortion-breast cancer risks** to women
- **This information must get out**

There is no time to waste.

56

Tell somebody the truth

- The public must be informed
- YOU must become pro-active

60

From The Abortion Breast Cancer Coalition Endnotes (1)

- **The Abortion/Breast Cancer Link: Support for the Evidence**
- **Physiological Evidence**
- Dr. Jose Russo, M.D. and Dr. Irma Russo, M. D. (Fox Chase Cancer Center, PA)
- In 1995 Russo and Russo published the results of their study involving laboratory rats which confirmed a relationship between abortion and increased risk of breast cancer.
- [Russo & Russo (1995) Am J. Pathol 100:497-512]
- **Medical Groups Supporting Disclosure of Research:**
- **Association of American Physicians and Surgeons**
- 1601 N. Tucson Blvd., Suite 9
- Tucson, AZ 85716-3450
- 520-323-3110
- "The Association of American Physicians and Surgeons believes that patients have the right to give or withhold fully informed consent before undergoing medical treatment. This includes notification of potential adverse effects. While there is a difference of medical opinion concerning the abortion breast cancer link, there is a considerable volume of evidence supporting this link, which is, moreover, highly plausible. We believe that a reasonable person would want to be informed of the existence of this evidence before making her decision."
- Jane Orent, MD
- Executive Director
- October 27, 2003

61

Endnotes (2)

- **Dr. Janet Daling's 1994 study** found an increased risk of 50% for the general population. It remains the only study specifically commissioned by the National Cancer Institute. [Janet R. Daling et al., "Risk of Breast Cancer Among Young Women: Relationship to Induced Abortion," 86 *Journal of the National Cancer Institute*, (1994):1584]
- Dr. Daling is an abortion supporter, but she did not allow her ideology get in the way of science. She said, "I have three sisters with breast cancer and I resent people messing with the scientific data to further their own agenda, be they pro-choice or pro-life. I would have loved to have found no association between breast cancer and abortion, but our research is rock solid and our data is accurate." [L.A. Daily News, Sept., 1997] [Abortion Breast Cancer Coalition]
- **U. S. and World Medical Community Support of The Abortion Breast Cancer Link**
- **National Physicians Center for Family Resources** <http://www.physicianscenter.org/>
- **American Association of Pro-Life Obstetricians and Gynecologists** <http://www.aaplog.org/>
- **The Polycarp Institute** <http://www.polycarp.org/>

62

Endnotes (3)

- **Studies and Research Support**
- **Breast Cancer Research Institute** (www.bcrinstitute.org)
- Joel Brind, Ph.D., "Abortion Now a 'Risk Factor' According to Latest New England Journal Review, Abortion Breast Cancer Quarterly Update, Spring 2000, Vol. 4, No. 1
- **New England Journal of Medicine**
- The Melbye study has been severely criticized for its errors by both the Brind/Penn State team and Senghas and Dolan." [1997] *New Engl J Med* 336:1634. "However, even Melbye reported within the body of the study that: '[w]ith each one-week increase in the gestational age of the fetus ... there was a 3 percent increase in the risk of breast cancer.'" [Melbye et al. (1997) *New Engl J Med* 336:83]
- **The World Health Organization** published its study in 1970 and said that the results "suggested increased risk associated with abortion -- contrary to the reduction in risk associated with full-term births." [MacMahon B, et al. *Bull Wld Health Org* (1970); 43: 209-21]

63

Endnotes (4)

- **News From the Abortion Breast Cancer Coalition (ABCC)**
 - Web site: www.abortionbreastcancer.com
 - On March 13, 2000 **The Royal College of Obstetricians and Gynecologists** became the world's first medical organization to warn its abortion providers that the abortion-breast cancer link "cannot be disregarded" and that a 1996 review of the worldwide studies done by Dr. Joel Brind, President of the Breast Cancer Prevention Institute, was "carefully conducted" and "had no major methodological shortcomings." [Evidence-based Guideline No. 7, The Care of Women Requesting Induced Abortion, Royal College of Obstetricians and Gynecologists, Press Conference, March 13, 2000.]
 - Mrs. Karen Malec, President of ABCC, said "Now that 27 out of 33 worldwide studies have reported a link between abortion and breast cancer (13 out of 14 of which are American studies reporting a link) and 43 years since the first study, the *New England Journal of Medicine* has finally chosen to recognize the overwhelming evidence of an abortion-breast cancer link."
- (*All endnote information belongs to Karen Malec, President, The Abortion Breast Cancer Coalition. More information is available at: www.abortionbreastcancer.com)

64

End

"...there is a highly visible difference between the pace of basic sciences and the application of new knowledge to human problems. It needs explaining."
Lewis Thomas

65
